

The diagram illustrates the relationship between bleed and cutting areas on a page. It features a background with a diagonal split: the top-left portion is a lighter orange, and the bottom-right portion is a darker orange. Two vertical white bars are positioned on the left side. The taller bar represents the bleed area, and the shorter bar represents the cutting area. Two white callout boxes with rounded corners are placed in the center-right. The top box, with blue text, identifies the taller bar as the 'Bleed Area (806mm x 2006mm)'. The bottom box, with red text, identifies the shorter bar as the 'Cutting Area (800mm x 2000mm)'. A white rectangular area is also shown in the bottom right corner of the page.

Bleed Area (806mm x 2006mm)

Cutting Area (800mm x 2000mm)
